STORING ENERGY'S FUTURE

DYNETEK ANNOUNCES CHANGES TO THE BOARD OF DIRECTORS

Calgary, Alberta, Canada – August 21, 2007 – Dynetek Industries Ltd. (TSX:DNK), a leader in the design, manufacturing and marketing of proprietary fuel storage cylinders and systems for compressed natural gas (CNG) and hydrogen, announced today the appointment of Anthony (Tony) Roberts to the Board of Directors.

Anthony Roberts has over 35 years experience in the carbon fibre and advanced composite industry sectors. From the 1970s to the 1990s, he was with Courtaulds Grafil, Coventry, UK. He subsequently moved to Mitsubishi Rayon Co Ltd., working in the United States as Sales and Marketing Director for subsidiary companies Grafil Inc. and Newport Adhesives and Composites Inc. From 2005 to the present, Roberts has served the composite industry as an independent consultant.

Dynetek also announced today that Peter Leus has resigned as a director. Heinz Portmann, on behalf of the Board of Directors of Dynetek, thanked Peter Leus for his years of service and his valuable contributions to Dynetek's success.
